## CNC COOLER

**Summer is Heating Up!**  
**So is Your Control Cabinets!**

Install an Arizona Vortex CNC Cooler and forget about your heat related shut downs! Mounts easily anywhere on the cabinet so it can be out of the operators way! This is a low cost solution to manage the temperatures inside control cabinets.

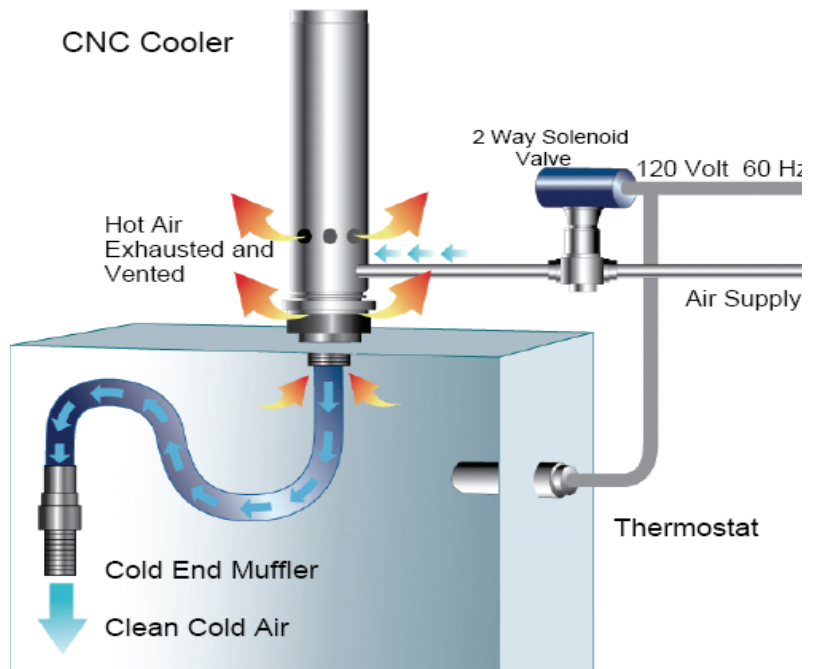

The CNC Cooler will help you maintain NEMA ratings by creating positive pressure within the cabinet and along with relief valves built into the CNC Cooler, you can maintain the sealed nature of the cabinet.

### Real Applications:

- CNC Cabinets-
- Protect your investment*
- PLCs
- Cool Industrial cameras
- Computer cabinets
- Motor Controls

**STAINLESS STEEL CONSTRUCTION!**
